MUHAMMAD MUDASSAR SATTAR

SOFTWARE ENGINEER

SUMMARY

Innovative and detail-oriented Front-End Developer with a passion for creating user-centric web applications. I thrive in collaborative environments and have a proven track record of turning complex requirements into efficient, engaging, and responsive designs. With a deep understanding of both technical and aesthetic aspects of web development, I aim to enhance user satisfaction through intuitive interfaces and high-performance applications.

EDUCATION AND TRAINING

Bachelor of Science, Software Engineering, 08/2024
COMSATS Univeristy Islamabad - Vehari

Intermediate, Fsc Pre-Engineering, 05/2020
Govt. Post Graduate College - Burewala

EXPERIENCE

Senior Front End Developer, 11/2024 - Current
Dark Bytes - Lahore, Johar Town**, PK**
As a **Senior Front-End Developer**, I am responsible for designing, developing, and optimizing user-facing applications using modern front-end technologies. My primary focus is on delivering high-performance, responsive, and visually appealing web interfaces, ensuring a seamless user experience across all devices.
Key Responsibilities:

- **Developed responsive**, high-performance web applications using React.js, Next.js, and modern UI frameworks, ensuring cross-browser compatibility and optimized performance.
- **Collaborated with designers**, product managers, and back-end teams to translate business requirements into interactive and scalable user interfaces.
- **Mentored junior developers**, conducted code reviews, and led front-end architecture improvements, including migrating legacy code to modern frameworks and enhancing overall user experience.

Software Quality Assurance Engineer, 12/2023 - 02/2025
InVision - Remote

- **Manual Testing**: Conducted comprehensive manual testing to ensure software quality and adherence to industry standards.
- **Collaboration**: Worked closely with development teams to identify and resolve quality issues, leading to a 100% reduction in bug reports.
- **QA Processes**: Implemented and refined quality assurance processes, enhancing overall software reliability and user satisfaction.

SKILLS

- JavaScript
- React.JS
- Node.JS
- RESTful APIs Integration
- Software Testing
- Testing framework (Jest, etc)
- Git Version Control
- Python
- Django
- SQL

TESTING TOOLS

- Appium
- Postman API
- Jira
- Jenkins
- Microsoft Teams

Front End Developer, 07/2022 - 11/2024
Rise Tech - Islamabad**,** PK
As a **Front-End Developer** at Rise Tech, I have had the opportunity to work on several dynamic projects where I utilized React to build responsive and interactive user interfaces. My role has involved:

- **React & Front-End Technologies**: Extensive experience with React, JavaScript, HTML, CSS, and responsive design frameworks.
- **State Management**: Proficiency in using Redux and Context API for managing application state.
- **Testing & Debugging**: Familiarity with testing libraries such as Jest and React Testing Library Version Control: Experience with Git for version control and collaboration on projects.
- **Version Control:** Experience with Git for version control and collaboration on projects.

Front End Developer, 05/2022 - 08/2022
Codex IT Solution - MULTAN**,** PK

- **HTML & CSS Expertise:** Strong expertise in creating well-structured, visually appealing, and responsive websites.
- **Bootstrap Proficiency:** Proficient in using Bootstrap for efficient, responsive, and mobile-first design.
- **Cross-Browser Compatibility**: Ensured compatibility across various browsers and devices for improved user experience.
- **Collaboration & Problem-Solving**: Worked effectively with design teams to translate wireframes and mockups into functional web pages, and collaborated with back-end developers to integrate APIs and other functionalities.

ACHIEVEMENTS

- Designed and developed a suite of high-performance web applications using React.js and Next.js, and Python achieving a 90% improvement in load times and user engagement.
- Implemented state management solutions using Redux and Context API, which improved data flow and reduced bugs by 95%.
- Collaborated with cross-functional teams to create interactive user interfaces that increased user satisfaction ratings by 100%.
- Led the migration of a legacy codebase to modern frameworks, resulting in a 70% reduction in maintenance costs and enhanced application performance.
- Executed thorough testing protocols using Jest and React Testing Library, ensuring a code reliability rate of over 95% before production launch.
